Profile

WordPress developer who builds custom designs in Elementor and code. I create fast, responsive WooCommerce stores and product landing pages, and set them up with SEO-friendly structure. I work remotely and am available to start immediately.

Skills

- WordPress theme customization and setup
- Elementor custom design and landing pages
- WooCommerce store development
- Speed optimization and security
- Plugin configuration and customization
- HTML5, CSS3, Tailwind CSS
- Basic JavaScript and React
- REST API integration
- SEO-friendly website structure
- Git, GitHub, cPanel, hosting management

Experience

WordPress Developer, Freelance

Remote

- Built and customized WordPress websites for business, e-commerce, and portfolio use.
- Designed custom pages in Elementor from client ideas and reference layouts, with custom HTML and CSS where needed.
- Built WooCommerce stores with product management, payment gateways, and courier integration.
- Built nine product landing pages for Taqwa Lifestyle BD, an online shop in Bangladesh.
- Improved website speed, security, and on-page SEO.
- Integrated third-party APIs and plugins to meet client requirements.

Selected projects

Taqwa Lifestyle BD: product landing pages (WordPress, Elementor)

Baby Flying Doll, Mustard Oil, Ghee, Masala, Korean Necklace Combo, 30 Para Plug-in Quran, Chain Bracelet, Comfort Set, LED Rechargeable. Live examples: taqwalifestylebd.com/step/mustard-oil, taqwalifestylebd.com/step/comfort-set

SEO-Friendly Business Website (WordPress)

WooCommerce E-commerce Website

Blog and Agency Website (Next.js)
